### **DETAILED ACTION**

This action is in response to the Amendment received on 23 February 2007 in which claims 92-101 are pending, and claims 1-91 and 102-107 were cancelled.

#### ***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance:

With respect to these claims, the instant applicant is deemed to be directed to a nonobvious improvement over van Halteren (U.S. Patent No. 6,931,140). The improvement over comprises an electroacoustic transducer having a first and second magnetic field gap; a coil system with at least one coil with electrical conductive paths connected to a diaphragm and further extending into the first and second gaps; wherein a magnet is arranged so that each of its magnetic poles define a surface of respective ones of the first and second gaps and the magnetic field in both gaps flow in the same direction, as substantially described and connected with the other functional language of claims 92-101.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
